

Thoughts about the Pathways Course from a Former Student...

“Pathways was the first course I did at Drumalis. Through this course I ‘unlearned’ a lot about the faith I grew up in and instead learned about it as an adult in new, fresh ways that made me hunger for more!

The facilitators introduced me to the beauty of liturgy, I literally fell in love with the Sacraments in a completely new way, a way that was and remains life giving! I grew to appreciate the differences in people that makes each of us unique and yet one! A vibrant community of acceptance and celebration of each person, each one made in the image and likeness of God and that maybe that extended to me too!

I literally could not get enough, I wanted more, it was as if I was being wooed! Continually invited and welcomed to a banquet of love and knowledge. I need only show up. Some days I cried, some I laughed and once even got angry. My emotional reactions weren’t ever frowned upon but welcomed, nourished and explored to help me understand, even in a small way, the gift I was invited to participate in!

I’ve since completed many courses at Drumalis and though I came there educated only to GCSE level, I now am a small group facilitator, I graduated from Maynooth University as a Spiritual Director and have co-written and presented material! Yes, wee me, lol!

Come, sign up for Pathways! You need no previous experience, you don’t have to be educated, you don’t even have to speak. But I promise that if you do speak, that your voice will be heard and your questions answered and you will leave feeling fuller and more alive for the experience!

Thank you Drumalis for everything you have done for me.”
